

## TEST RESULT SUMMARY

<b>Application Name:</b>	<b>VKB</b>	<b>Company name:</b>	<b>Golan Technology</b>
<b>Application UID:</b>	<b>0x20010A38</b>		
<b>Application Id:</b>	<b>34819</b>	<b>Date:</b>	<b>May 19<sup>th</sup>, 2008</b>
<b>Terminal:</b>	<b>Nokia N95</b>	<b>Test Ref:</b>	<b>STH_4794</b>
<b>Test Round:</b>	<b>1</b>	<b>Status:</b>	<b>PASS</b>

### 1. SUMMARY REPORT

#### Test Case Check List

- 1) Fatal errors:                    **0**
- 2) Non-repeatable errors:       **0**
- 3) Observations:                   **0**
- 4) General comments:            **3**

<b>Test Reference</b>	<b>Test Summary</b>	<b>Result</b>
UNI-01	Installation, Normal and Stressed Usage	<b>PASS</b>
UNI-02	Service Interruption	<b>PASS</b>
UNI-03	Low Memory Startup	<b>N/A</b>
UNI-04	Low Storage Memory During Startup & Execution	<b>PASS</b>
UNI-05	System Events and Task List Compliance	<b>PASS</b>
UNI-06	Application Functionality In Between Device Reboots	<b>PASS</b>
UNI-07	Backup and Restore Compliance	<b>N/A</b>
UNI-08	Uninstall	<b>PASS</b>
UNI-09	Reinstallation and mass memory storage	<b>N/A</b>
UNI-10	Scalable UI Compliance	<b>PASS</b>
UNI-11	Correct Auto-start Behavior	<b>PASS</b>

CAP-01	Applications do not interfere with voice calls	N/A
CAP-02	Telephony UI Application Control	N/A
CAP-03	Manufacturer Disclaimer for VoIP Applications	N/A
CAP-04	Active VoIP call and notification of an incoming GSM/UMTS call	N/A
CAP-05	Emergency Call When VoIP Application is Open	N/A

## 2. FATAL ERRORS

None

## 3. NON-REPEATABLE ERRORS

None

## 4. OBSERVATIONS

None

## 5. GENERAL COMMENTS

- 1) We performed full testing against Symbian Signed Test Criteria V3.0.1
- 2) **UNI-03 (Symbian OS v9 onwards only):** TOOL2 is currently unavailable for Symbian OS V9. Until such time as Symbian makes this tool or an equivalent available, this test should be waived automatically.
- 3) **VKB** is a usefully tool, nicely implemented on **Nokia N95** device. We think it will satisfy all the conditions that a Symbian Signed application must match. So congratulations, it can be Symbian Signed.
